Leila Joshi

Software Engineer - Backend
leila.joshi@example.com | +1-555-116-2726 | linkedin.com/in/leila

Profile

Results-driven software engineer - backend (4+ yrs) focused on Java and Spring Boot. Comfortable owning features end to end and working with cross-functional teams.

Professional Experience

Software Engineer - Backend - Lumen Logistics
Feb 2026 - Present
- Migrated a monolith to event-driven Microservices using Kafka, reducing order processing delay by 60%
- Designed REST APIs consumed by web and mobile clients, with contract tests and versioning
- Implemented idempotent consumers and dead-letter queues for reliable event handling

Senior Java Developer - Helix Fintech
May 2022 - Jan 2026
- Introduced unit and integration testing standards, raising coverage from 45% to 82%
- Developed Spring Boot microservices in Java 17 handling 15k requests per second for the payments platform
- Tuned MySQL queries and added Redis caching, cutting p99 latency from 900ms to 120ms

Technical Skills

Java, Spring Boot, Microservices, REST APIs, MySQL, Kafka, PostgreSQL, Docker, Redis

EDUCATION

B.Tech in Computer Science, Anna University (2021)

Key Projects

- Rate limiter library using token bucket
- Ticket booking system with seat locking

CERTIFICATIONS

- AWS Certified Developer - Associate
